

Series Cash Tournament

More chips, more players, bigger prize pool.

Played three times a year, the cash tournament occurs at the conclusion of each four-month series, typically in February, June, and October.

Total prize pool begins at \$2,000 and is scaled up or down based on overall attendance for the series. **Everyone at the final table cashes.**

Tables are assigned based on chip distribution. Seat assignments are random.

No-shows: Pre-confirmed no-shows will not have stacks on the tables. **You MUST contact us if you are going to be late. Anyone who is not present at the start of the tournament - and has not contacted us ahead of time - will lose their seat.**

Late arrivals: Pre-confirmed late arrivals will be subject to these penalties:

- **900 chips removed at the start of each level (300 chips each, first three hands)**
- **Stack will be blinded**
- **If the late player arrives within the first three hands of the level, they are allowed to play, but must complete the penalty for that level.**
- **Player's chips will be pulled from the table at the conclusion of the first break.**

In the event that there is an uneven number of active players between tables, we will switch "players" with "no-shows" based on the closest stack size.

Players will redraw for seating at final table. Clock will be stopped. Players draw and take their seats. Ace is the button.

Please be sure to thank the Dietershagens for being such gracious hosts and making this event possible.

Good Luck!
