

## REBUY Games

Reload or add-on - Second chances for all!

### **Begins Sunday June 5th**

Rebuy games are held alternating with Kockout games @ 6PM (except the last Sunday of each month - Deep Stack starting at 5PM), and have modified blind levels in the first round.

- All players will receive a rebuy chip worth 1,000 chips.
- Rebuy chips can be redeemed once your stack is at 1,000 or lower (in between hands only - you can only redeem during the shuffle)
- Rebuy chips have no table value - if you go all-in before redeeming your rebuy chip, you still keep your rebuy chip and can use it to "rebuy" for an additional 1,000 chips.
- ALL unredeemed rebuy chips will be redeemed at the first break, regardless of stack size.
